HOSPITAL COORDINATING SWINE FLU PROGRAM

Rumford Community Hospital will be hosting an organizational meeting for a swine flu immunization program on Thursday, Aug. 26, at 2:30 p. m. in the hospital conference room.

The hospital has been designated by the State as the coordinator of the immunization program for the fourteen towns in Northern Oxford County. Town officials have been invited to send a representative, who would serve as chairman of the program in their area, to Thursday's meeting. Health Information Forum members, who will assist with promotion, have also been invited along with other key persons.

The swine flu vaccine will be arriving in Maine the latter part of September or early October in preparation for an anticipated outbreak of swine flu.

Some 22,000 people in Northern Oxford County should be immunized during the month of October to avoid a possible epidemic in this area before the "flu-season" starts in November. To accomplish this task, the hospital will need the assistance of many volunteers. Interested nurses and volunteers may contact Jacqueline Horner, RN, director of nurses, or Rosabelle Tift, director of public relations and personnel, at the Rumford Community Hospital. Names of those volunteering from area towns will be forwarded to the area chairmen. Representatives from Bethel at the Aug. 26 meeting will be Sue Laban and Merton Brown.

YOUTH CONSERVATION CORPS TERMINATE SUMMER PROGRAM

Ten Bethel area High School age youngsters completed eight weeks of employment with the U. S. Forest Service last Friday. One of their final work programs was a Civic Action Project involving the protection of the Bartlett Cemetery on the East Bethel Road. This cemetery is the resting place of many of Bethel's forefathers and Revolutionary War Veterans. A page wire fence was set around the cemetery by the youths with the aid of Robert Hastings. Stanley Howe, Bethel Selectman, suggested the project as a worthy one especially in this Bicentennial Year.

SUNDAY RIVER SCHOOL TO BE PRESERVED

In 1895, the town of Newry appropriated the sum of \$300, to construct a schoolhouse in District No. 1. Eighty-one years later this same one-room structure stands as one of the few remaining links with turn of the century education in rural Oxford County. On Saturday, Sept. 4, from 10 to 12, and 1 to 4, the District No. 1 Lower Sunday River School, will be open to inspection. Visitors will once again confront the scene of learning with its accompanying disciplines. Sunday River School has been designated as the town of Newry's Bicentennial Project under the direction of Mrs. Florence Baker, Sunday River Road.

The school in question was used as such for fifty years, closing its doors in 1945. Thereafter, Mrs. Julia Fleet conducted Sunday School classes in the building for a number of years.

The Sunday River School presents a rather startling interior atmosphere, for still contained are many of the implements common to such schools. Those visiting Saturday will note the school desks (of 1872 vintage), kerosene lamps, school text books, globe, maps, blackboards, etc. Even the box stove has survived the years to remind us once again of chilly days when falling asleep in class was a near-impossibility.

Mrs. Baker, who with interested area residents, has worked diligently to open the schoolhouse for inspection, encourages all, but especially residents of Newry, to attend the open house.

By late fall, it is hoped an organization of concerned individuals may form with the goal of accurately preserving the building

Interior view of Sunday River School.

IMMUNIZATION PROGRAM INFORMATION RECEIVED

Rep. Emily Saunders has received information from the Legislative Committee on Health and Institutional Services concerning the Influenza Immunization Program in the State of Maine. The information came in the form of a report from Charles Okey, Director of Maine's Public Health Laboratory.

The status of Maine's immunization program is as follows. Dennis Dix, Immunization Program Director, prepared a request for vaccine and financial support from the federal government in late March, and this was awarded soon after. Hospital administrators assisted by Jaycee groups, Public Health nurses and volunteers have planned \$95,000 in federal funds for vaccines and supplies. Designated pharmacies throughout Maine will act as repositories and distribution points for vaccine, needles and syringes, available to physicians for use in their offices.

Phase I of the program will consist of administering a bivalent vaccine (a Victoria Influenza common to the U. S. this year plus isolated in New Jersey this year) to those 65 years of age and over, those whose medical situation make them a high risk for influenza, and public safety and utility personnel; a group of about

NOVA VOTERS SAY "NO" SECOND TIME TO BUDGET

For the second time in less than two months voters of the Northern Oxford Vocational Area have rejected a budget proposed by the Area's cooperative board. The area embraces the towns of Andover, Bethel, Byron, Canton, Carthage, Dixfield, Greenwood, Hanover, Newry, Peru, Roxbury, Rumford and Woodstock.

On Tuesday evening of this week at a meeting held at Rumford High School, NOVA voters rejected a budget of \$154,004, to provide secondary vocational education for students in the area. On June 24 at the same location an amount of \$234,582 was turned down.

According to current state statute and Maine Department of Education regulations no funds expended for secondary vocational education will be reimbursed unless the program is operated by a vocational area. The rate of reimbursement for funds expended by a vocational area is reported to be 90%.

This is said to be the initial time this situation has existed since the Vocational Areas were mandated by the State Legislature through-out the state three years ago. School officials are reportedly currently conferring with the State Attorney General's office and Department of Education officials in an attempt to find at least a partial solution.

The part of the S. A. D. #44 offerings most affected by the NOVA problem is Co-Operative Education and to a lesser degree Telstar students enrolled in Trade Courses at Rumford.

Newry

— Miss Amy Hanscom, Corres. —

The old snow roller, once used by the town to roll roads on Sunday River, has been donated to The Bethel Historical Society. The roller has been behind the buildings on the former Robert Foster place, owned by Romeo Baker since 1953, and much of the wood work has rotted away, but enough is left for a pattern, so that it may be restored. It is made in two sections, each about six feet in diameter and four feet wide, with a wooden frame work around it and a seat on top for the driver of the four, six and sometimes eight horses that pulled it. Each roller is made from planks fastened to approximately six foot diameter iron wheels and the two rolls are placed side by side, thus making an eight foot roller. It was used to pack down the snow on town roads from some time in the early 1900's until 1927, when the town purchased a tractor and plow at a price of \$5,438. A few years later truck plows were bought and the tractor was used for heavy duty until about 1950, when it was sold. The roller will be redwooded where necessary, and it will be on exhibition.

Due to much vandalism in the past on the lake, members agreed to form a "neighborhood watch."

Year-round residents in different localities on the lake volunteered to keep an eye on cottages in their area during the off-season months.

John Osborn, instructor of chemistry at Gould Academy and an honorary member of the association then reported on his latest findings about the water quality in Songo Pond. For the past two years, Mr. Osborn has been making various tests of the Songo waters. All readings have been fed into a computer and the final results will be published shortly and made available to association members.

He reported Songo as being slightly eutrophic at present. In his opinion, on a scale of 1 to 100, 0 representing absolutely pure water and 100 representing the worst conditions, Songo would fall around 42.

A question and answer period followed with much concern being expressed over the effects of the winter salt used on trees and water.

KIMBALL FAMILY REUNION

Descendants of ancestor in com-
mon Richard Kimball met for
their eighth reunion at Bridgton
Academy, North Bridgton, the
week end of Aug. 14, coming from
16 states, and the District of Col-
umbia.

Almost 200 registered, includ-
ing 25 Kimball children. The Ken-
neth Knowlers, of Culpepper, Va.,
were in charge of registration and
were assisted by Mrs. Gerald Kim-
ball, and Mrs. Ralph Hascall, Nor-
way; Miss Dorothy Davis, Bridg-
ton; and Dorothy Bennett, Rumford.
Mrs. Emma Kimball Hall, N. H.,
sold luncheon tickets. Mrs. How-
ard Kimball, Manchester, N. H.,
was chairlady of the Hobby
Show, in which several Kimballs
participated with displays of
quilts, toys, bee-keeping and fan-
sies, the hobbies attracting in-
terest.

The morning of the 14th was
spent in browsing, visiting around
hobby exhibits, and researching
family lines with members of the
Genealogy Research Committee;
Mrs. Charlotte Bedard, and Mrs.
Jeanette Kimball, co-chairladies.

A buffet on Aug. 13 was held for
57 early arrivals at the Bridg-
ton Highlands Country Club. Ar-
rived 40 were housed in the Acad-
emy dormitories, with many oth-
ers staying in area motels.

The Reunion was planned and
arrangements carried out by Presi-
dent and Mrs. Russell Kimball,
Greenville, N. H., assisted by El-
izabeth N. Carter, West Bethel.
Richard Kimball of Bethel, and C.
Mellen Kimball, Locke Mills, with
the Ralph Hascalls and Gerald
Kimballs of Norway, assisting by
placing all reunion directional signs.

Three previous reunions have
been held at the Academy, where
the first took place August 1968.

Luncheon was provided by the
school dining service at the Din-
ing Hall, and many also picnicked
on the campus. In the a. m., a
chartering car from David Carter's
restaurant served coffee
and doughnuts.

Mrs. Eleanor Samuelson, Port-
land, sold the Kimball hats, which
were not in as much evidence as
usual due to the Bicentennial cos-
tumes of many attending. All
agreed it was the Association's
most colorful reunion.

The afternoon program and busi-
ness meeting were presided over
by President Russell Kimball, with
invocation offered by Mrs. Emma
K. Hall, and singing of the Kim-
ball Song, accompanied by Mrs.
Mildred K. Fitts, Fryeburg. Miss
Amy Kimball, daughter of Past
President Gordon Kimball, Wolfe-
boro Falls, N. H., sang several
songs familiar to a combo of
guitars. The afternoon session was
preceded by a brief auction con-
ducted by Stuart Martin, Rumford,
of donated items.

Past President and first reunion
Master of Ceremonies, Herbert E.
Kimball, Rochester, N. H., gave an
excellent talk on the "Bicentennial
and the Kimball Family" saying
that "as we look to the 3rd cen-
tury the family unit must again
occupy a place of great importance
— let us practice our personal and
religious convictions — so that
when the name Kimball is seen, or
heard it may in truth represent
a sign that people may trust us
— let us as a family be worthy of
praise and emulation."

Also a taped message from Hon-
orary Director, Dr. Charles Kim-
ball, Kansas City, was heard, which
emphasized the need of better
teaching of history in the schools,
and the importance of all recog-
nizing their history all around
them, and the part Kimballs have
played in this country's history.

It was reported that Hon. Flo-
rence B. Reynolds, Honorary Di-
rector Omaha, Neb., was unable
to attend due to illness, and that
she had generously given book-
lets containing the by-laws for all
committee members use.

Second Vice President Beatrice
Kimball, who had directed a con-
test for Kimball Youth on essays
prizing to ancestry, announced
that "as we look to the 3rd cen-
tury the family unit must again

Leonard Ellingwood, of Washington, D. C., author of an "Ellingwood Book", also a lecturer, addressed the gathering on Ancestors.

Persons using the name Ellingwood, Ellenwood, Ellingwood, all trace back to the single immigrant Ralph Ellingwood, who arrived from London, England on the Truelove Nov. 1835 and settled in Salem, Mass.

The Ellingwood families have contributed much to this country, as early pioneers were among the early settlers in Amherst, N. H. (1740) then a part of Massachusetts, were given grants of land as a bonus to the veterans of King Philip's War.

John, fifth generation born in Amherst, settled in Bethel, about 1793. He was a shoe-maker. His son, John Jr., after his marriage to Rachel Barrows of Paris, was one of the first to settle on Milan Hill, N. H. Rachel's father was Asa Barrows, veteran of the Revolutionary War, who settled in Paris, 1782/3 died at the age of 98.

Those attending: Morris L. Ellingwood, Mr. and Mrs. Rupert Ellingwood, Mr. and Mrs. Irwin Ellingwood, Mr. and Mrs. Ellis Ellingwood, Mr. and Mrs. William O'Connor, Mrs. Evelyn Chamberlain, Lisa, Pamela and Owen, Mr. and Mrs. Hugh Abbott, Mr. and Mrs. Fred Oja and Julie, Mr. and Mrs. Fred Oja, Jerry and Jack, Shelly Kothaus, all from West Paris.

MILLS - PACKARD

St. Athanasius-St. John Church Rumford, was the setting for the August 7 wedding of Miss Pamela Packard, daughter of Mr. and Mrs. William T. Packard, Rumford, and Philip Mills, son of Mr. and Mrs. Roger Mills, Jr., of Andover. The double ring ceremony was performed by Fr. Michael Cote.

Mr. and Mrs. Philip Mills

The bride's gown was fashioned of white satin with an Empire waistline, bell sleeves and a pearled length veil was caught to a caplet edged with colonial bouquet and she carried a colonial bouquet of pink roses, miniature white carnations and baby's breath.

Her sister, Mrs. Gary A. Milligan, as matron of honor, wore a green crepe knit, fashioned with scoop neck and attached capelet with bell sleeves. Bridesmaids, Mrs. Spencer Couture of Rumford Point; the Misses Beverly White and Leslie Mills, sister of the groom of Andover, wore gowns in shades of yellow, blue and peach respectively. Each carried a single pink rose trimmed with streamers to match their gowns. Flower girl, Miss Laurie Mills of a Augusta, niece of the groom, wore a floor length dress of white with multicolored roses in shades of the attendant's gowns and carried a miniature colonial bouquet of multi-colored carnations. All the gowns were sewn by the bride.

Best man was Barry Swasey, Andover, and ushering were Spencer Couture, Rumford Point, and the groom's brothers, Richard and Michael Mills, Andover. Solist was Mrs. Beatrice Clark, with Prof. Arthur Beaudet at the organ. The reception was held at St. Rocco Hall.

The bride is a graduate of Rumford High School. Mr. Mills graduated from Telstar Regional High School, Bethel, attended the University of Maine, Augusta, and served four years with the U. S. Navy.

IMPORTANT INFORMATION ABOUT HIGH BLOOD PRESSURE

Treating high blood pressure takes more than one person, it is a combination of the patient, the physician and the pharmacist.

1. If you don't know whether you have high blood pressure, ask us at Clukey's or your doctor to check your pressure. You should do this even if you feel well because high blood pressure may not have any noticeable symptoms.
2. If you have high blood pressure, follow your doctor's instructions about taking medicine, diet—including weight loss if you are overweight—and changes in general health habits, such as rest and recreation. These measures will reduce the risk of stroke, heart attack, kidney failure and heart failure.
3. When your physician prescribes medications, keep taking them whether you feel well or not, and whether you think the drugs are helping or hurting. Report exactly how you feel to your doctor. He can then make any suitable changes needed in your treatment program, or he can ask us to dispense a different medication that may be more suitable to your individual condition.
4. Cooperate with the health team of physician and pharmacist. Working together, blood pressure can be kept under control.

IMMUNIZATION PROGRAM

INFORMATION RECEIVED

continued from Page One
200,000 people, to be immunized in a three week period in early fall.

Phase II of the program calls for the administration of a monovalent vaccine (consisting of only the swine-like virus) to the remainder of the population down through age three. It is possible that individuals less than 19 years of age may require a second dose of vaccine after an interval of four weeks.

Vaccine will be administered by needle and syringe to small communities, by jet gun in densely populated areas.

Charles Okey also reported to the legislative committee that the Public Health Laboratory will participate in an international surveillance system to detect the presence of swine flu virus. To date the viruses have not been isolated anywhere in the world, having been identified only in Fort Dix, N. J., in January. Okey hypothesized that swine flu is not likely to be present in epidemic form, but prefers to be safe rather than sorry by going ahead with the mass immunization.

Rep. Saunders hopes that anyone desiring further information on this, or any other problem involving state government, will contact her for assistance.

STILL ON RISE

As part of its continuous effort to determine population changes in the State of Maine, the State Planning Office analyzed the data received from the Division of Motor Vehicles for the first six months of 1976. This data reflects only those individuals born out of state who apply for Maine drivers licenses.

As compared to the first six month period of 1975, the 1976 data shows a slight increase in population. During January through June, 1976, 6,127 people turned in out of state licenses, a jump of over 300 during the same period in 1975. However, as compared to the last six month period in 1975, the 1976 data reveals a decrease. It should be noted however, that the majority of the summer moving months are in the second six month figures.

The percentage of younger immigrants to the state has also increased: over the 1975 figures. Comparing the same six month periods of 1975 and 1976, there was a 3% increase in both the 20 year old age group and the 20-24 year old age group. There is a decrease of 4% in the 35 to 44 age group, and 2% in those over 64. The percentage remained the same in the 44 to 64 age group (15% of total immigrants).

Maine still seems to be attracting the younger and middle aged, with the majority of immigrants being between 20 and 34 years old (65%). If this trend continues, important ramifications will be felt in areas of housing, education and employment. These factors are being continually analyzed by the State Planning Office.

STATE FOREST NURSERY

NEEDS CONES

The State Forest Nursery of the Maine Bureau of Forestry announces the need for 100 bushel of white pine cones, 50 bushel of red pine, 400 bushel white spruce, 200 bushel Norway spruce and 200 bushel black spruce. The State Nursery, located in Greenbush, grows approximately three million forest seedlings each year for planting on marginal lands in Maine. The prices per bushel, delivered to the local Bureau Forester are as follows: white pine \$3.00, red pine \$10, white spruce \$7, Norway spruce \$2.50, black spruce \$8. Prospective cone pickers should contact their local state service forester who will inspect the cones before picking. The forester will provide burlap bags for collecting cones.

All cones must be ripe and unopened. White spruce and white pine cones generally ripen in late August and can be picked until the cones open in September.

Norway spruce and red pine can be picked anytime during the fall. Black spruce should be picked during the fall. The cones can be picked from freshly cut tree tops lying on the ground on logging operations or trees can be climbed and the cones removed.

Further information can be obtained by contacting the Maine Bureau of Forestry, Augusta, telephone 289-2791.

CONSERVATIONISTS CITED

IN GOODYEAR AWARDS

Oxford County Soil and Water Conservation District has been hailed as runner-up in the Annual Goodyear Conservation Awards program in Maine.

The Oxford District, composed of landowners interested in conservation of the area's soil and water resources, was chosen for its accomplishments over the past year in resource management and development.

The contest is sponsored by the Goodyear Tire and Rubber Company in cooperation with the National Association of Conservation Districts.

Oxford's Board of Supervisors presented a plaque in recognition of this outstanding work at the recent meeting of the Maine Association of Soil and Water Conservation Districts.

The Conservation Board of Supervisors includes Norris Conant, Canton, Chairman; Alvin Brown of East Waterford; John M. Longley of Norway; Evan Thurlow of Mechanic Falls and Dana Douglass of Bethel.

Named as outstanding cooperators of the District was Fred Greenwood of Buckfield. The apple grower has been a cooper with the District since 1961 and has installed numerous conservation measures on his land.

10 YEARS AGO

A meeting in Bryant Pond discussed the possibility of forming a "Chamber of Commerce."

The Bethel highway crew was constructing about seven tenths of a mile of road on Grover Hill with Town Road Improvement funds.

By a 120 to 70 secret vote, a loitering ordinance was approved at a special Bethel town meeting. The ordinance was designed to prohibit "standing or loitering by person or persons, or group of persons, on streets, sidewalks, public ways, squares, alleys, or parks, on foot or in a motor vehicle, or in an entrance to a public building after being requested to move by a duly authorized officer." Caution Urged in Labor Day Driving

This Labor Day Weekend, the Maine State Police will have all available personnel on patrol in an effort for motorists to end a "pleasant summer with a safe driving experience."

We call on all motorists to personally join in this effort as the inevitable heavy flow of traffic on all roads should be warning enough to keep all motorists alert "behind the wheels," said Col. Allan H. Weeks, Chief of the Maine State Police.

Troopers will be especially patrolling along routes bearing heavy traffic concentrations throughout Maine so as to be accessible to motorists seeking aid or information.

The Maine State Police Chief said drivers should note that the three top contributors to fatal road crashes so far this year have been liquor, speeding and driver inattention — with alcohol being the most significant factor.

Along with the Labor Day Weekend ushering in the final four months of the year, drivers throughout Maine will have a vigorous challenge to their driving abilities during the unusual variety of weather conditions of fall and early winter.
